NOTES:

- The designated member spoke on each topic
- Questions were raised and the effect of COVID-19 on the emotional health of students was talked about. It was agreed to be vigilant and talk with counselor about those issues if we see them
- Vaping continues to be a concern. The committee was glad to know we were installing vaping detectors and wants to know we are doing all we can to keep kids from vaping on campus.
- With vaping and drinking we discussed speakers who might have an impact coming in. Officer Liscano suggested we look at doing a Shattered Dreams program. This idea was well received and several in the group were interested in looking into what it would take. Will be revisited.
- Ms Alvarado spoke on the benefit of the smaller lunch room groups. Has made the lunch program more manageable
- Officer Liscano spoke about our active shooter plan. We agreed that we need to coordinate with Mr Webb and Ms Baum and have a drill for active shooter.
